

Ref. No. MBIT/CVMU/2024/1793

14<sup>th</sup> August 2024

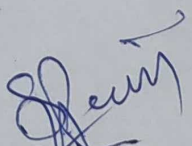

**LETTER OF RECOMMENDATION**

It is a source of pride and gratification for me to recommend **Mr. Joy Pankajkumar Patel** for graduate studies at your honored university. Joy was studying under me for four years between 2020 and 2024. I was his professor for various subjects, including **Information and Network Security and Blockchain**. Thus, I had a chance to assess him closely and get to know him personally.

Apart from the classroom discussions, he has been an interactive student even during the non-teaching sessions to solve his academic queries. He is very logical in his ideas and has always been seeking the opportunity to improve his knowledge. All his assignments during his academic tenure with this college have been up to the mark. He can ask the right questions and conduct his own research and studies out of the classroom.

In my observations, Joy is very punctual and disciplined in class. His commitment to timeliness and order not only reflects a strong work ethic but also sets a positive example for his peers. In addition, he has been one of the most inquisitive students I have known. Joy consistently demonstrates a thirst for knowledge, asking insightful questions that showcase his genuine curiosity and eagerness to delve deeper into the subject matter. This quality not only enriches his own learning experience but also contributes to a vibrant and intellectually stimulating classroom environment.

All in all, Joy has performed excellently well throughout the undergraduate program at our university through proper management and applying theoretical knowledge in practical form. Thus, I strongly recommend him for admission to your university. If you have any questions about this recommendation, please do not hesitate to contact me, and I will gladly try to help.

**Prof. Sunit Parmar**  
Assistant Professor  
Department of Computer Engineering
